

The "One to One Laptop" initiative is being implemented in DoDEA schools to increase technical and 21<sup>st</sup> Century skills; provide more opportunities to increase student engagement across all curriculum areas; and provide teachers and students with additional access to curricular materials and digital information.

I never teach my pupils; I only attempt to provide the conditions in which they can learn. - Albert Einstein

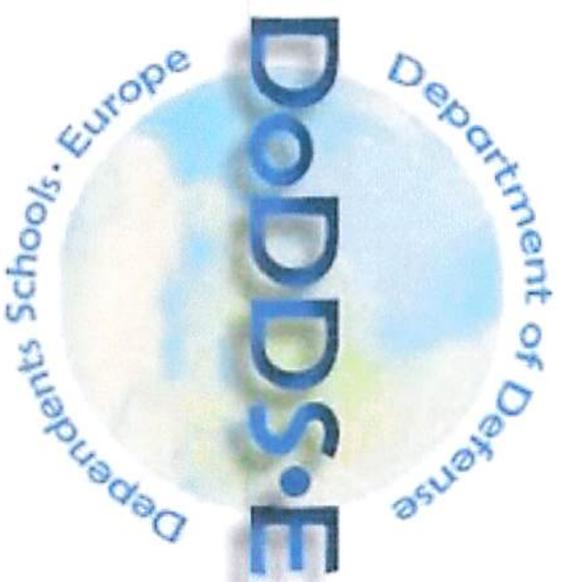

Students will be expected to use this device as a learning tool at all times without exception...

..will increase engagement, access to critical materials, and technical and 21<sup>st</sup> century skills.

Students Shall:

- Be held responsible for any breaches caused by allowing other persons to use their account.
- Be held responsible for their actions while using internet and online communication services.
- Be aware that misuse of internet and online communication services may result in disciplinary actions.

ONE-TO-ONE  
LAPTOP INITIATIVE  
What Parents Need to Know

EDUCATION is equipping our children to walk through doors of opportunity.  
*L. B. Johnson*

Please talk to your students about...

1. Acceptable Use Policy: what does this mean to your student?
2. Maintaining the computer: Government Property Vs. Home Ownership
3. Ensuring your student's computer is ready to use every day: Is their computer charged?
4. Backing up their data: Discuss what could happen if their hard drive would fail. What's their plan?

#### Official DoDEA Policies

related to the

One to One Initiative:

1. Computer Internet Access Policy
2. Student/Parent Property Use Agreement

Have you read yours over with your student?

#### TECHNOLOGY SUPPORT

DoDEA IT will support service requests for student devices in the school.

- Non operational devices will be replaced
- Each computer will receive a standard image includes both curriculum resources and access to productivity software

#### Students are responsible for:

- Coming to school with the device fully charged.
- Adhering to the Acceptable Use Policy
- Backing up their data
- Maintaining security on their device
- Keeping their passwords confidential
- Notify their teacher if they suspect they have a virus or have received a message that is inappropriate
- Knowing that all use of the internet and online communication can be audited
